Email Marketing Playbook

List Growth, Welcome Sequences & Campaign Strategy

Email delivers an average \$42 return for every \$1 spent — the highest ROI of any marketing channel. The reason most businesses fail with email is poor list quality, no welcome sequence, and inconsistent sending. This play book fixes all three.

PART 1 — LIST BUILD ING S TRAT EGY

1.

Choose a lead magnet with exchange value

A checklist, template, guide, calculator, or quiz. The opt-in offer must be MORE valuable than the email address you're asking for.

2. Build a dedicated opt-in landing page

Single CTA, no navigation.

Headline = the outcome of the lead

magnet.
3–5
bullet
points.
Form
with first
