Your GBP is the most important local SEO asset you have. Most businesses fill in 40% of it. Here's how to complete it properly.

Business name exactly matches your real-world signage (no keyword stuffing)

Primarily category is the

most specific match to your core service

~~S~~Secondary categories added for all secondary services

~~B~~Business description: 750 characters, includes primary keyword naturally, written for the reader

Reviews are the #1 local ranking factor after GBP completeness. Target: 50+ reviews, 4.5+ stars, with responses to all.

1. Ask at the right moment
Immediately after delivering a result, completing a project, or a positive conversation. Not in the invoice.

2. Make it frictionless

Send a direct link to your GBP review page — every click to find it reduces completion rate by 40%.

3. SMS
