

AI PROMPTS

Analytics & Reporting AI Prompt Pack

24 Prompts

AI will confidently explain a metric change it knows nothing about. These prompts force it to distinguish observation from speculation.

What's inside

- 24 prompts for analysis and narrative
- Anomaly explanation frameworks
- Hypothesis generation from data
- Client-ready commentary prompts
- Guardrails against false causation

Analysis

- 01 Summarise what changed between two pasted periods
- 02 Identify which segment drove an aggregate change
- 03 Rank pages by opportunity using supplied metrics
- 04 Detect anomalies and state their magnitude

Hypotheses

- 01 Generate ranked hypotheses for a metric decline
- 02 Propose the test that would distinguish between them
- 03 Identify what additional data would be needed
- 04 Flag where seasonality could explain the pattern

Narrative

- 01 Write client commentary in plain, non-technical language
- 02 Translate a metric change into business impact
- 03 Draft next-step recommendations tied to the data
- 04 Produce an executive summary under 150 words

Guardrails

- 01 Require it to separate observation from inference
- 02 Never let it assert causation from correlation
- 03 Ask it to state confidence and missing context
- 04 Verify every figure against the source export
