

Link Building Outreach Templates

18 Email Sequences

Outreach fails on relevance and self-interest. These templates lead with something useful to the recipient and make the ask small and specific.

What's inside

- 18 templates across 6 link types
- Subject lines with reply-rate data
- Follow-up cadence that is not annoying
- Prospect qualification criteria
- Red flags for toxic link sources

Prospect Qualification

- 01 Topical relevance beats domain authority every time
- 02 Check the site has real organic traffic, not just metrics
- 03 Avoid sites with obvious paid-link footprints
- 04 Prioritise pages that already link out to peers

Message Structure

- 01 Reference something specific from their actual page
- 02 State the value to their reader before your ask
- 03 Make the ask a single, concrete action
- 04 Keep the first email under 120 words

Follow-Up

- 01 One follow-up after four business days, then stop
- 02 Add new information rather than repeating the ask
- 03 Never guilt-trip or fake a previous conversation
- 04 Close the loop politely when declined

Avoid

- 01 Link exchanges arranged in bulk
- 02 Sites selling placements openly
- 03 Private blog networks of any kind
- 04 Anchor text over-optimisation across a campaign
