

AI PROMPTS

SEO Content AI Prompt Pack

40 Prompts

Generic prompts produce generic content. These specify role, constraints, and output format, which is what separates usable drafts from noise.

What's inside

- 40 prompts across the content workflow
- Role and constraint patterns that work
- Prompts for entity and gap analysis
- Editing prompts that remove AI tells
- Guidance on what not to delegate

Research Prompts

- 01 Cluster a keyword list by search intent and stage
- 02 Extract subtopics every ranking page covers
- 03 Generate the questions a buyer asks before purchasing
- 04 Identify entities that must appear for topical completeness

Drafting Prompts

- 01 Produce an H2 outline for a stated intent and audience
- 02 Draft an introduction that states the answer immediately
- 03 Write a comparison table from supplied facts only
- 04 Generate meta title and description within character limits

Editing Prompts

- 01 Remove hedging language and filler phrases
- 02 Rewrite passive constructions as active
- 03 Flag every claim that lacks a source
- 04 Cut word count by 30% without losing substance

Guardrails

- 01 Never let AI invent statistics, dates, or quotes
- 02 Verify every factual claim before publishing
- 03 Keep first-hand experience human-written
- 04 Disclose AI assistance where your policy requires
