

TikTok Growth Playbook

0 to 10K Framework

TikTok rewards watch time and completion above everything else. This playbook is built around those two metrics — every tactic here exists to improve one of them.

What's inside

- 12 hook formulas with examples
- Optimal posting cadence by account stage
- Watch-time and completion benchmarks
- Trend adaptation without losing brand voice
- Comment strategy that compounds reach

The First Two Seconds

- 01 Open on motion or a face — never a static logo
- 02 State the payoff immediately, then deliver it
- 03 Put on-screen text in the first frame for sound-off viewers
- 04 Cut all preamble — start at the interesting part

Content Cadence

- 01 Post daily during the first 60 days to train the algorithm
- 02 Batch film weekly, publish daily
- 03 Three pillars: educate, prove, entertain
- 04 Reuse winning hooks with new content, not new hooks with old content

Metrics That Matter

- 01 Completion rate above 50% signals a strong hook
- 02 Average watch time is a better health check than views
- 03 Track saves and shares over likes
- 04 Ignore follower count until watch time is consistent

Compounding Reach

- 01 Reply to every comment in the first hour
- 02 Turn top comments into follow-up videos
- 03 Pin a comment that adds context or a CTA
- 04 Stitch and duet within your niche to borrow audiences
